I respectfully request that the FCC consider rejecting the National Association of Broadcaster's petition, 04-160, which would stop XM from providing its Instant Traffic & Weather.

I am sure the FCC shares my view that the American free marketplace allows the public to choose the product that best serves their needs. XM has done so and it should not be forced to discontinue providing its services due to a government ruling brought about by its competitors.

I urge you to reject petition 04-160.

Sincerely,
Curtis Rumbaugh
